In view of the amendment filed on February 15th 2006, the pending claims are unpatentable as following:

Claim Rejections - 35 USC § 112

1. Claims 1, 4, 14, 15 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, under b. the phrase "a high glass transition temperature polyimide layer *comprising a having a* glass" is indefinite. Applicant should either use – comprising a – or – having a --. Correction is required.

In claim 4, on line 1 the phrase "wherein: i." is indefinite, clarification is required.

In claim 14, the claim is structurally indefinite and lack of antecedent basis for "one of the additional conductive layers" and "the first and second outer layer".

In claim 15, applicant is suggested to delete terms such as ("COF"), ("LOC"), ("MCM"), ("BGA"), ("μ-BGA"), ("CSP") and ("TAB"). If applicant feels these terms are necessary to be in the claims, the examiner suggests that these terms be presented without the quotation marks, e.g. (COF). Or applicant can import these acronyms to the specification.

Claim 18 has been incorporated into the independent claim, thus it appears to be redundant.

Allowable Subject Matter

2. Claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
